

#salescentrictech

viewTravel

Is making travel itineraries, tour programs, destination presentations and trip proposals getting you down?

You spend so much of your time getting in front of the right prospects, making sure they're qualified and interested...

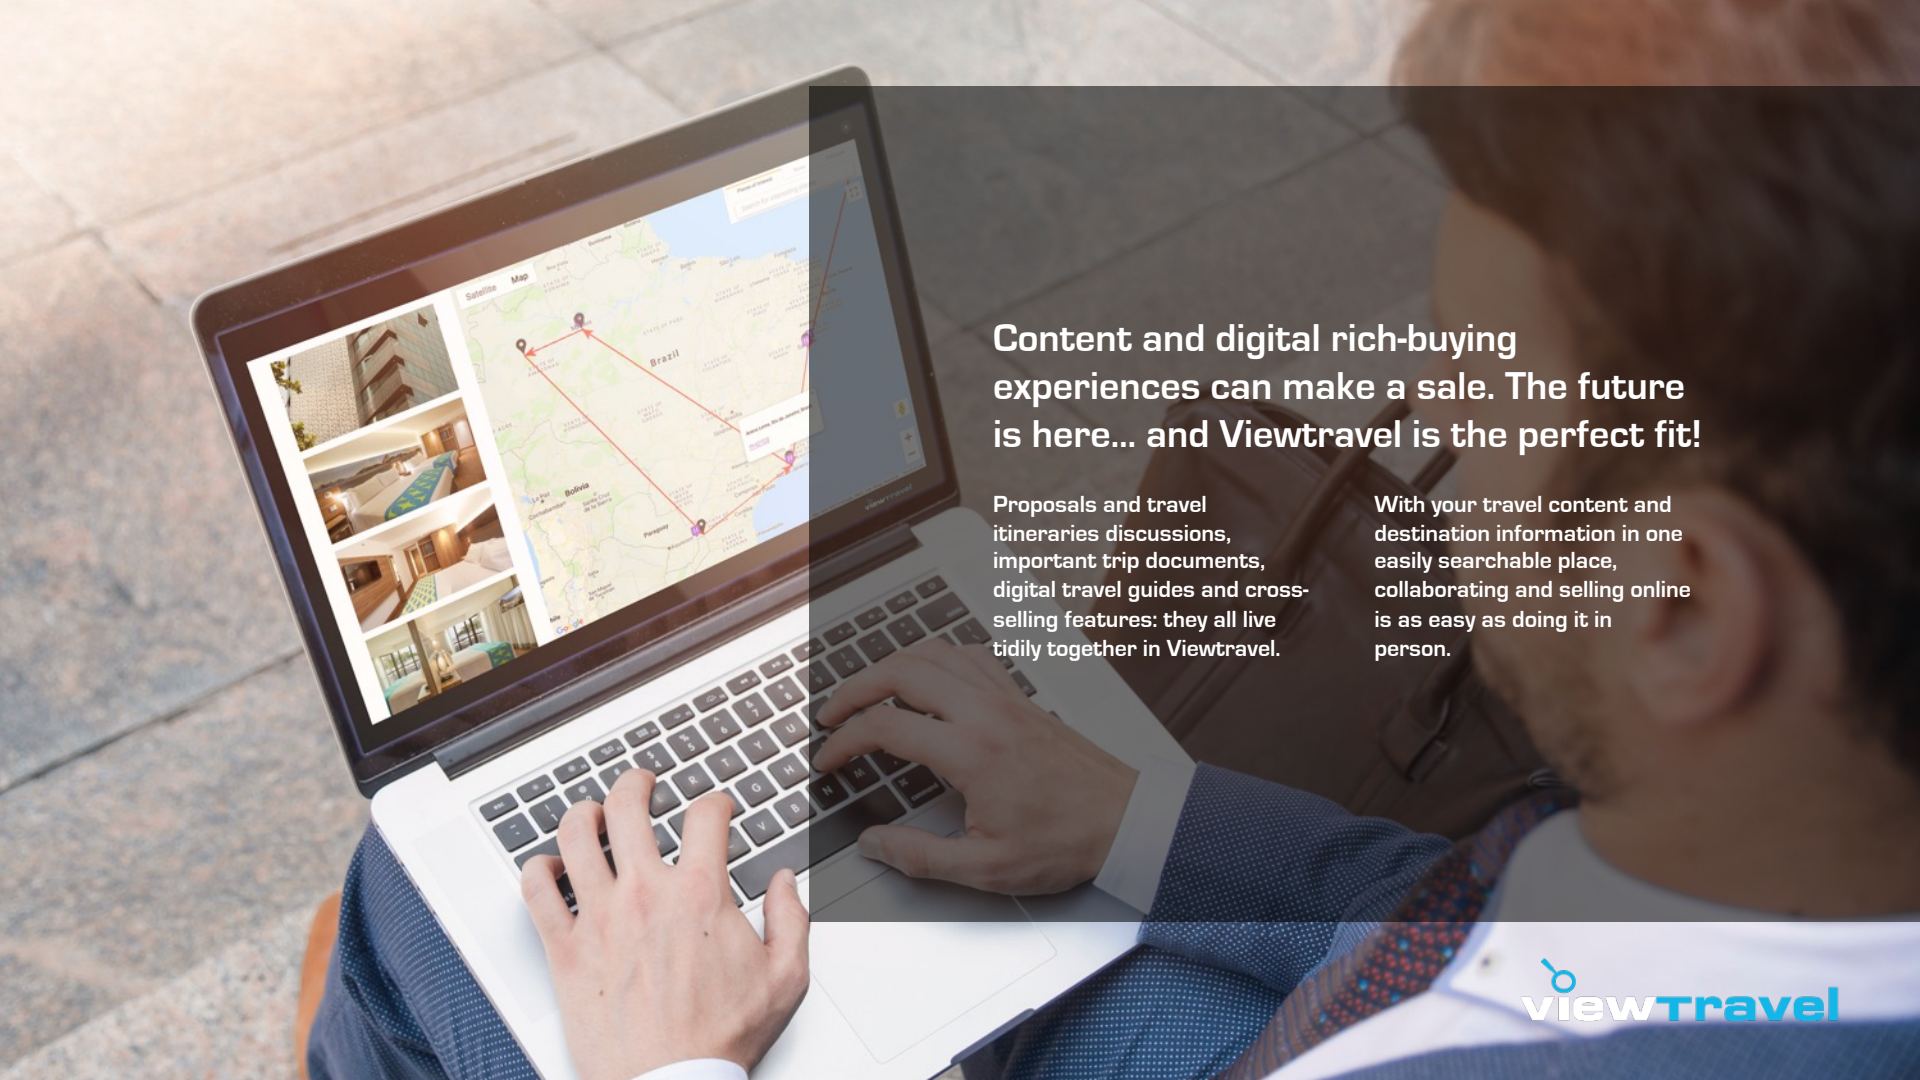

But once you actually have a great prospect, does your offer presentation process help close the sale?

Or does it actually create roadblocks to closing the deal?

Many of our clients have never thought what their travel itinerary, tour program, destination presentation and trip proposal presentation should look like in order to be a tool that helps them close more deals.

Have you thought about it?

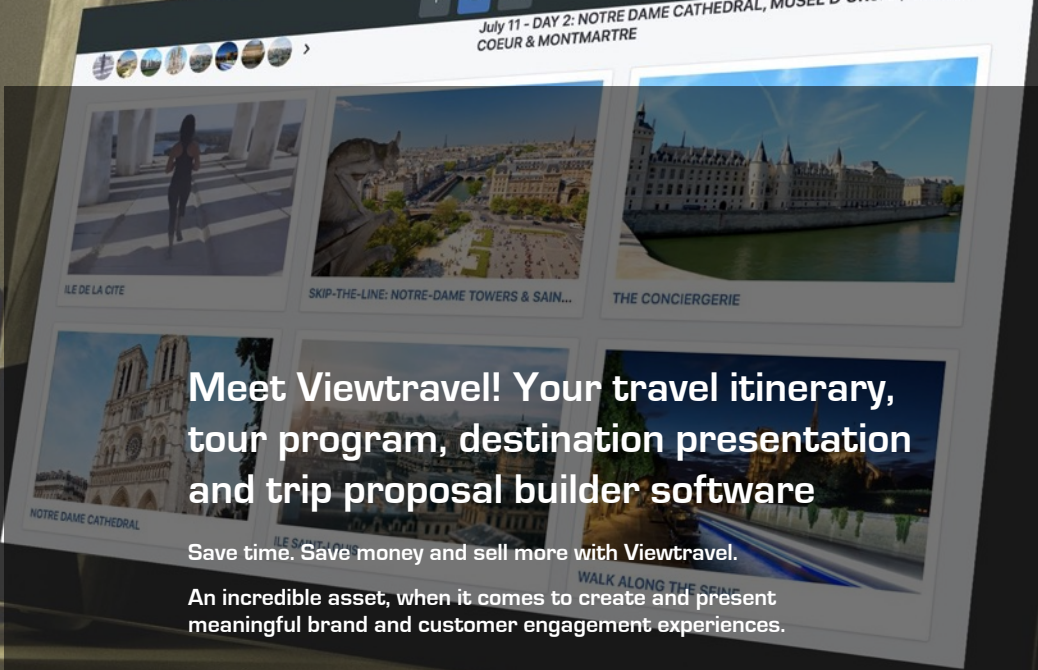

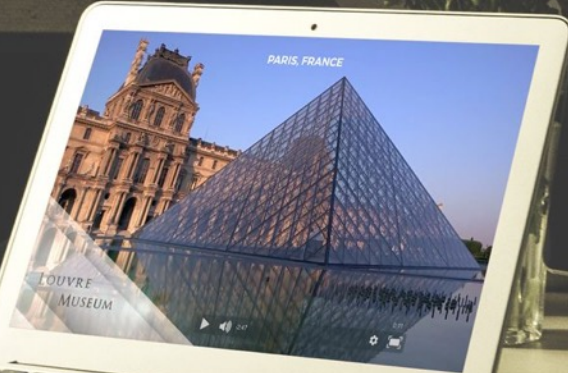

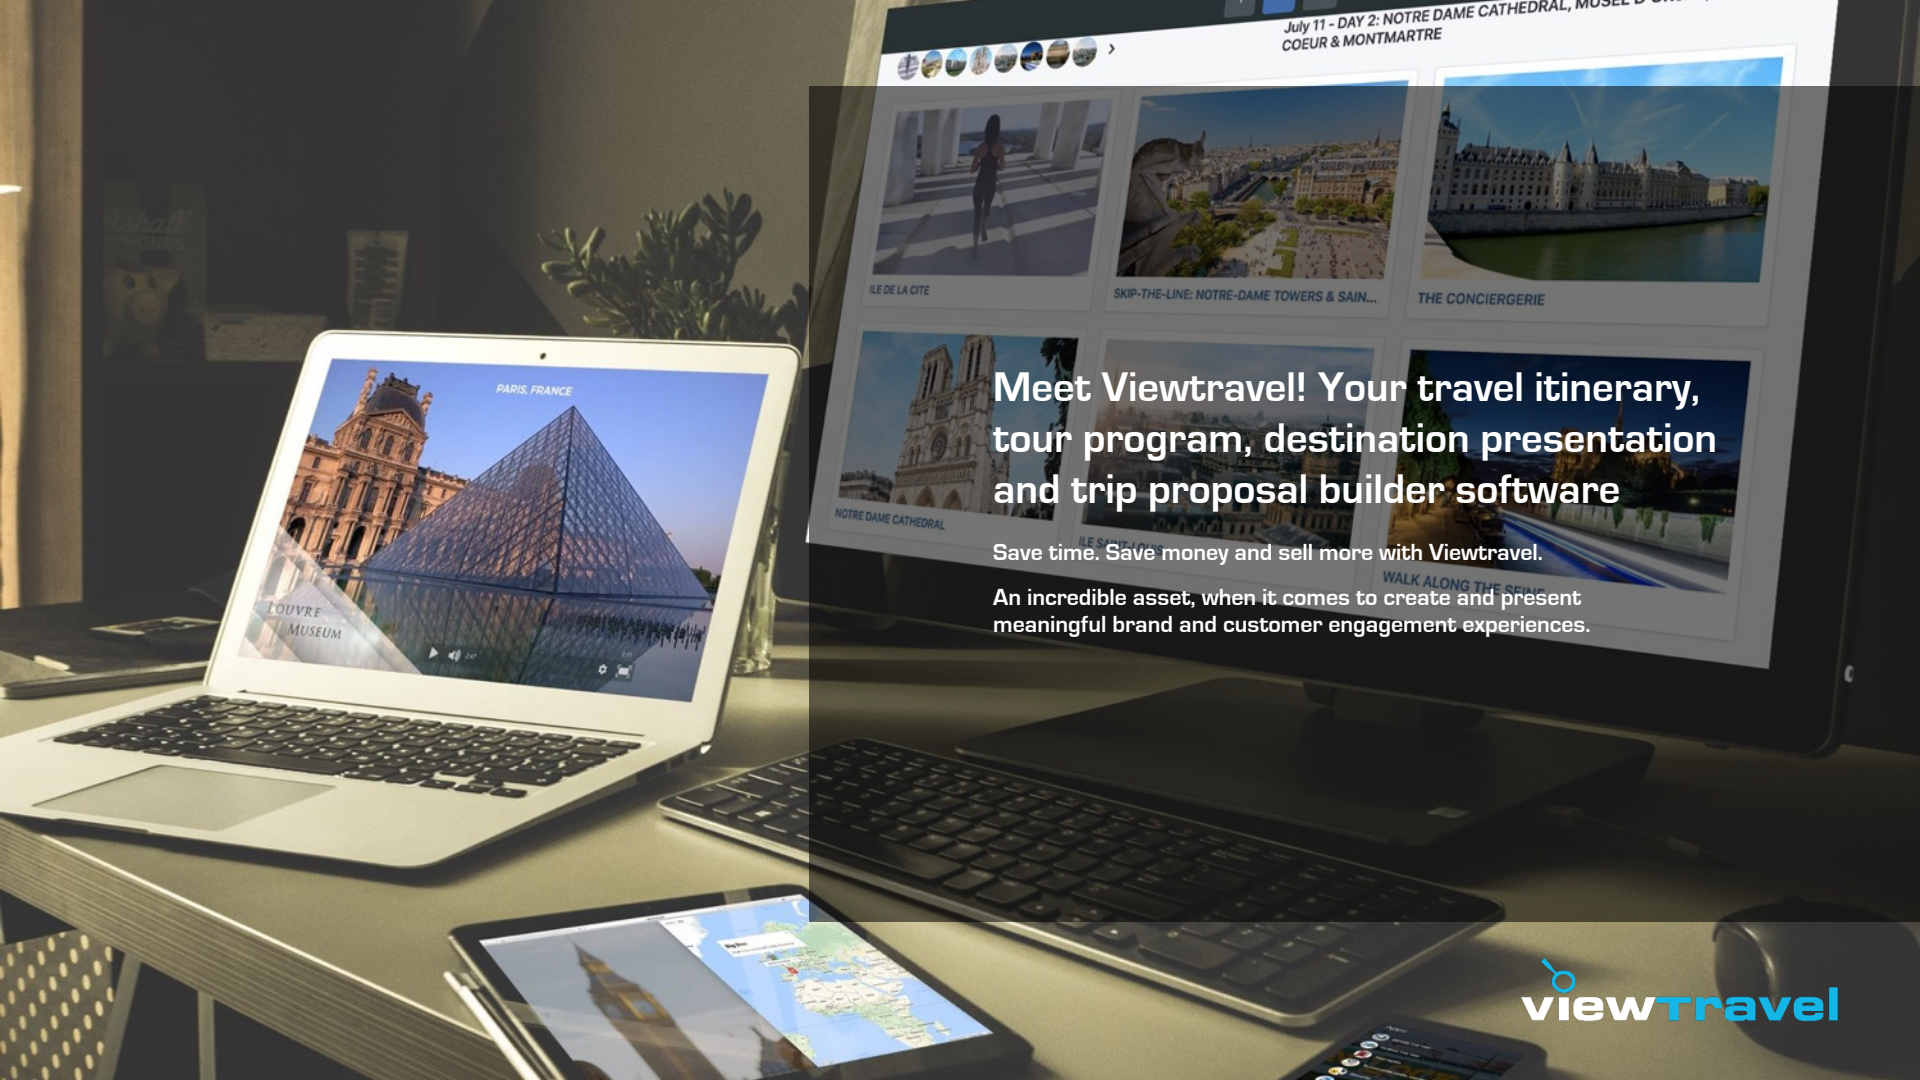

A great offer presentation tool has a massive impact on closing the sale. It can be the difference between closing or not closing, and the right technology can also be the difference between a small sale or a massive sale.

Content and digital rich-buying experiences can make a sale. The future is here... and Viewtravel is the perfect fit!

Proposals and travel itineraries discussions, important trip documents, digital travel guides and cross-selling features: they all live tidily together in Viewtravel.

With your travel content and destination information in one easily searchable place, collaborating and selling online is as easy as doing it in person.

Meet Viewtravel! Your travel itinerary, tour program, destination presentation and trip proposal builder software

Save time. Save money and sell more with Viewtravel.

An incredible asset, when it comes to create and present meaningful brand and customer engagement experiences.

Viewtravel is available for all sorts of types of players in the travel and tourism industry

Create a budget or trip quotation

Easily create and share your financial proposals and quotations.

Thanks to a simple and highly interactive interface, preparing and updating a budget it's as "easy as a pie".

- Add a budget or trip quotation to your offer presentation
- Manage the status of acceptance of your budgets
- Add a file name and a third-party reference ID to your budgets
- Integrate your .PDF budgets or Office 365 files on your offer presentations

Hello, John.
This is what is happening in your business.

UX / UI Site management

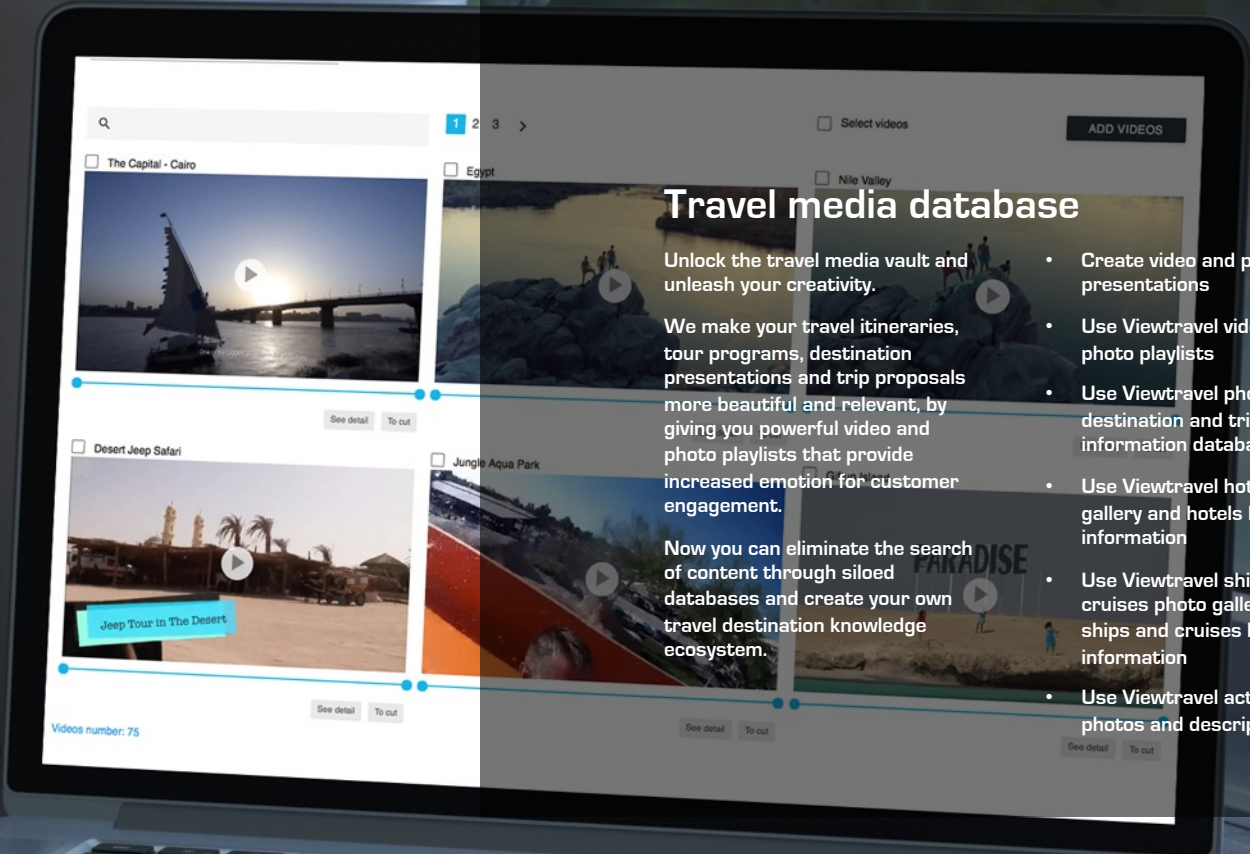

Viewtravel is a powerful tool that frees non-technical users from the shackles of controlling technically complex software.

It means anyone can add to, edit or manage Viewtravel through a very user-friendly interface that optimizes the user experience.

It means you will have more time to focus on bettering your business instead of trying to understand the reams of code.

It means you have full control of your Viewtravel implementation 24 hours a day and seven days a week, without waiting for a third party provider to grant access or make changes.

- Control content, functionality and even layout through an easy-to-use UI
- Configure Viewtravel menu
- Add calendars to your offer presentations
- Control the important information for the trip
- Add google analytics
- Manage your proposals and travel itinerary presentations details
- Change Viewtravel language
- Manage users, banners, GDPR consents, suppliers and much more

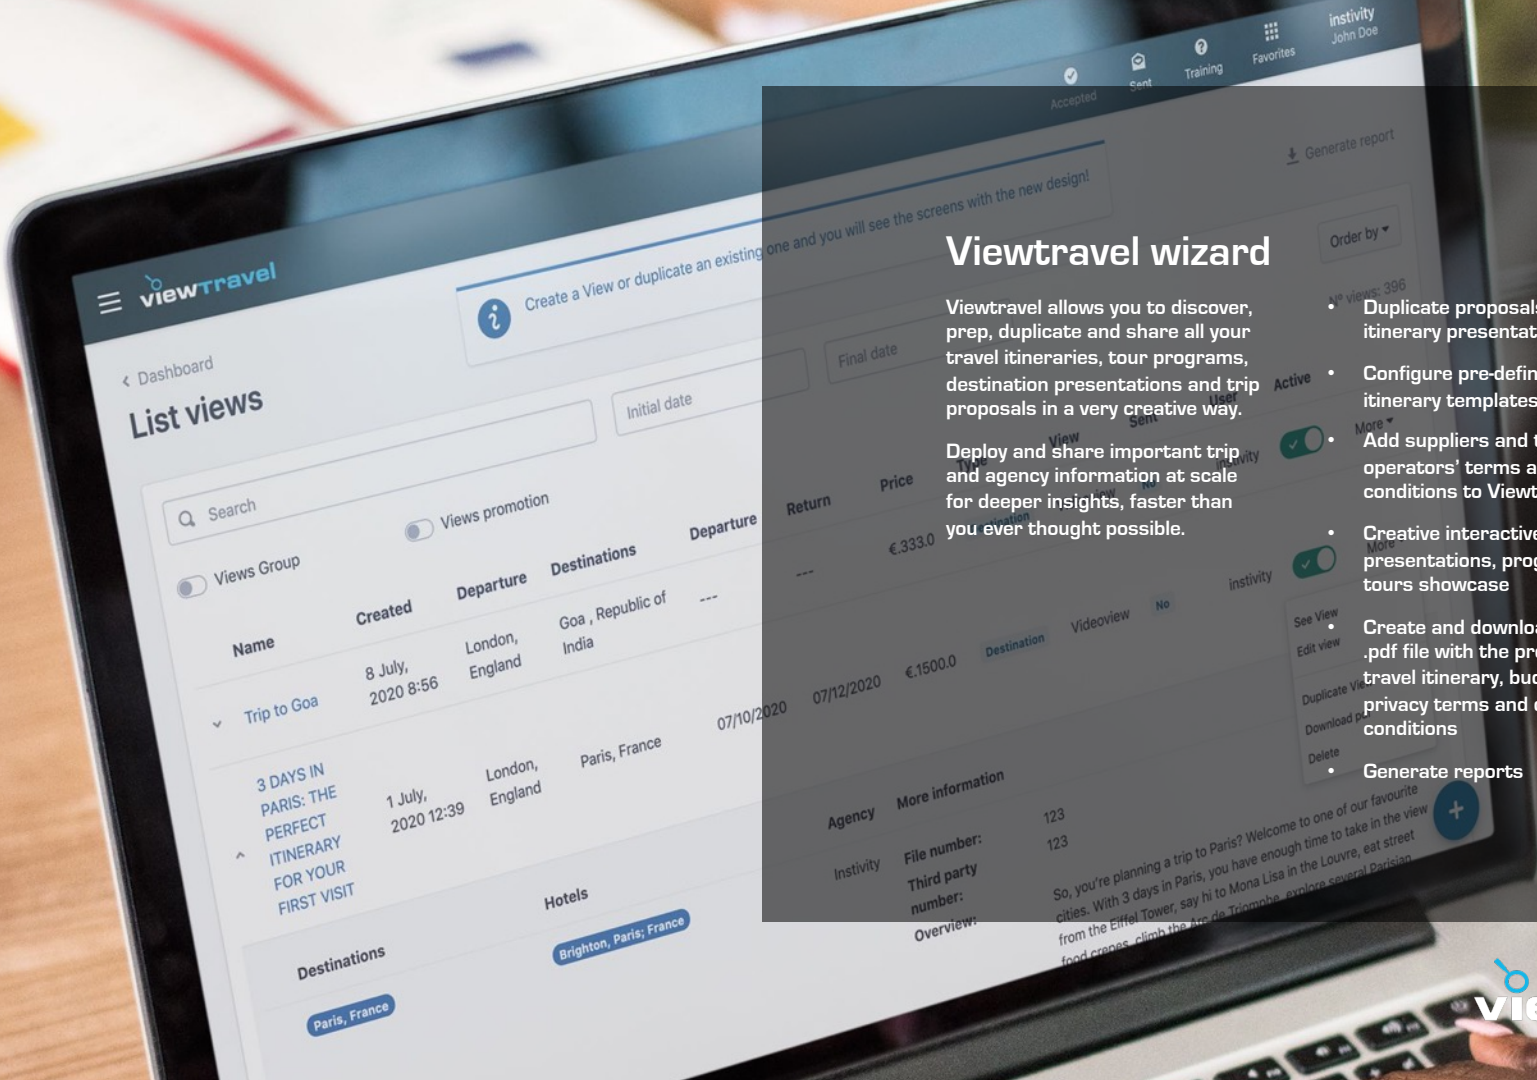

Travel media database

Unlock the travel media vault and unleash your creativity.

We make your travel itineraries, tour programs, destination presentations and trip proposals more beautiful and relevant, by giving you powerful video and photo playlists that provide increased emotion for customer engagement.

Now you can eliminate the search of content through siloed databases and create your own travel destination knowledge ecosystem.

- Create video and photo presentations
- Use Viewtravel video and photo playlists
- Use Viewtravel photo gallery destination and trip information database
- Use Viewtravel hotels photo gallery and hotels helpful information
- Use Viewtravel ships and cruises photo gallery and ships and cruises helpful information
- Use Viewtravel activities photos and descriptions

The travel hub

The Travel Hub by Viewtravel is an online travel portfolio of valuable content that will help anyone become a better sales

professional. With a continually growing repository of trip information, images, videos and one of a kind resources, the Travel Hub provides valuable sales tools for travel professionals at every level.

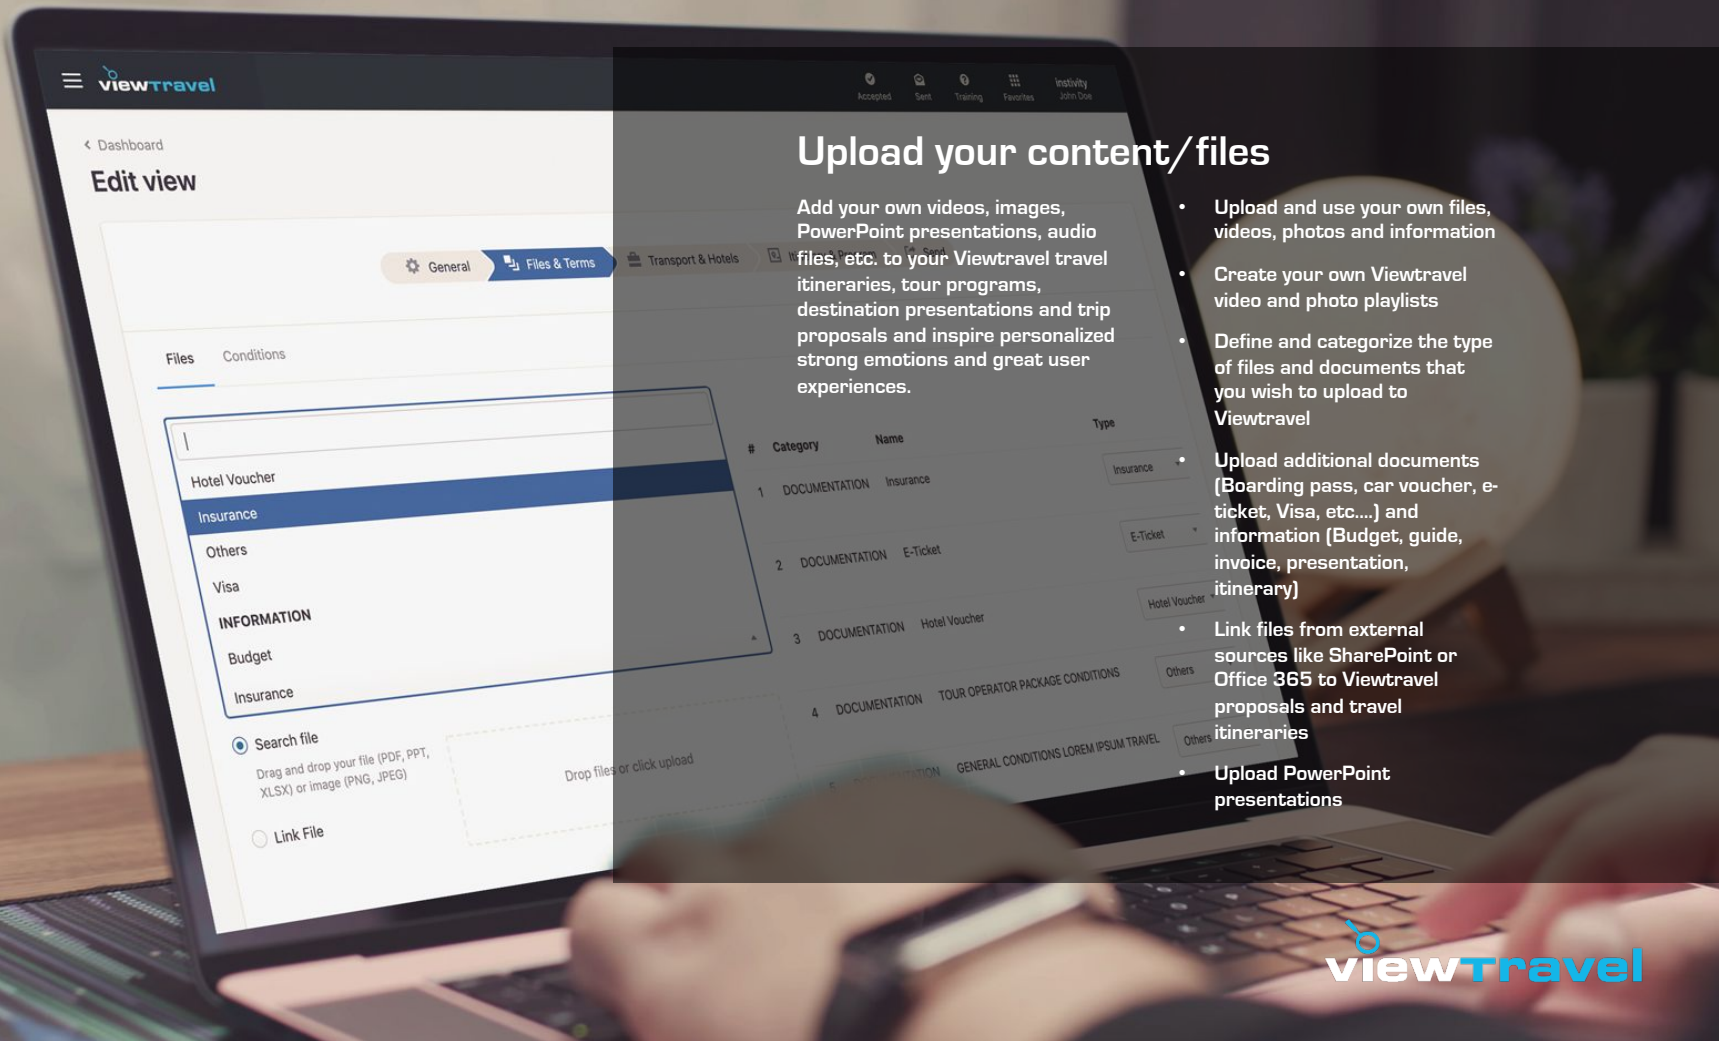

- **Prepare a Digital Tour** – Thanks to a simple and very interactive interface, through enhanced images, links to videos and digital files its extremely easy to virtually present your itineraries, travel suggestions and services, wherever you want, whenever you want.
- **Location Maps and Itineraries** – Integrated geolocation maps and detailed information about the places to visit bring a consolidated view of the tour, without having the need to consult information on multiple non-integrated

systems or manage information silos. In a single place, you have everything you need to manage your trip.

Social Networks Offer Distribution – Create a meaningful experience and then share your offers with your customers through Social Media – Facebook, LinkedIn, Twitter, Flickr, among others.

- **Chat and Notifications** – You are able to send a link via email or SMS to your customers, along with the travel budget and additional info relevant for the decision process. You can also use the integrated chat feature to interact with your customers and make proposals and travel itinerary changes “just in time” accordingly to your customer’s queries.

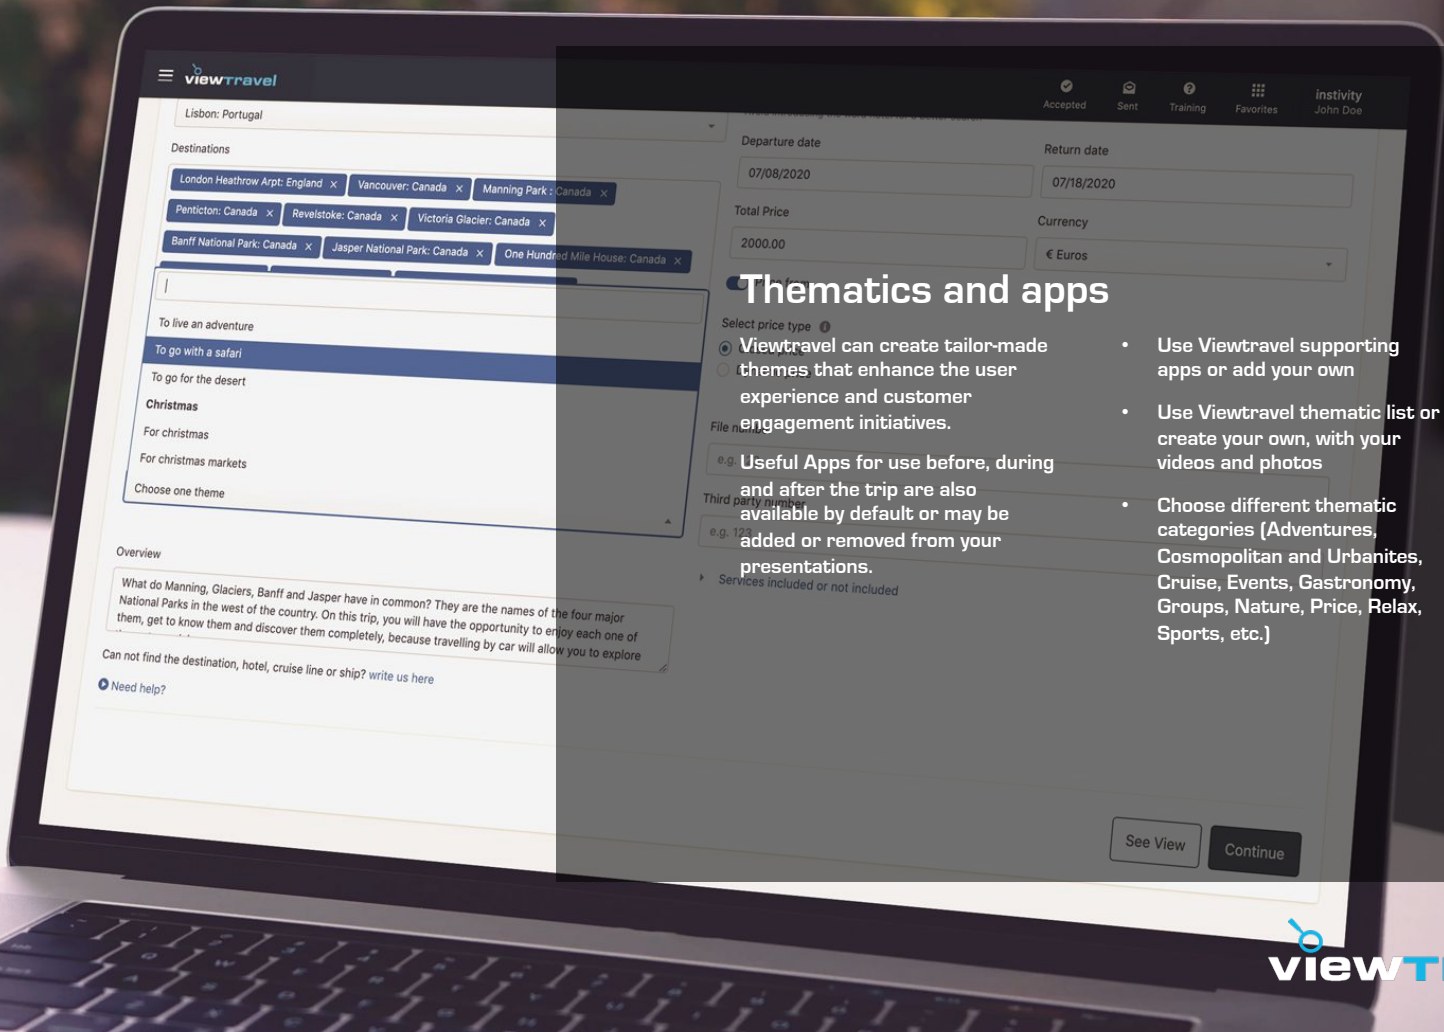

- **GDPR Compliance** – Activate GDPR – General Data Protection Regulation functionalities

Upload your content/files

Add your own videos, images, PowerPoint presentations, audio files, etc. to your Viewtravel travel itineraries, tour programs, destination presentations and trip proposals and inspire personalized strong emotions and great user experiences.

- Upload and use your own files, videos, photos and information
- Create your own Viewtravel video and photo playlists
- Define and categorize the type of files and documents that you wish to upload to Viewtravel
- Upload additional documents (Boarding pass, car voucher, e-ticket, Visa, etc....) and information (Budget, guide, invoice, presentation, itinerary)
- Link files from external sources like SharePoint or Office 365 to Viewtravel proposals and travel itineraries
- Upload PowerPoint presentations

Ubicación - Este elegante hotel está situado en la zona turística de la localidad de Playa Blanca, frente del mar y del paseo marítimo. Dando un paseo de 20 minutos puede llegar al puerto y al centro de la localidad (a 2 Km), donde encontrará una gran cantidad de tiendas, comercios y lugares de ocio y entretenimiento. Puerto del Carmen está a 30 km, la capital de la isla, Arrecife, a 35 y el aeropuerto a unos 40 Km. Podrá llegar a todos estos lugares cómodamente en transporte público. A 2 Km de distancia hay una parada de autobús. Instalaciones - El hotel fue edificado en el año 1997. El alojamiento ofrece 305 habitaciones. Hay un vestíbulo y servicios de recepción a disposición de los huéspedes. Es posible acceder a las plantas cómodamente en ascensor o bien por las escaleras. Las instalaciones

Adding videos to your website is as easy as pie!!

We are constantly engaged in meeting our customers needs and requests. That's why we have created Viewideo. An incredible content share tool that allows you to seamlessly integrate Viewtravel videos into your web apps.

Through Viewideo, creating and putting videos of destinations, hotels, cruises or any other

Viewtravel Travel Media Database content into third party systems it's a snap!

Viewtravel's Travel Media Database Playlists Access

Unlock the travel media vault and unleash your creativity.

Viewideo helps you make your online presence more beautiful and relevant, by giving you powerful video playlists that provides increased emotion for customer engagement.

- Now you can eliminate the search of content through siloed databases and create your own travel destination knowledge ecosystem.

Powerful Software Integration Platform

- Viewideo works under an easy to setup Viewtravel Platform API that frees non-technical users from the shackles of controlling a technically complex software.
- Anyone can create, edit and add videos to their web app through a very user friendly interface. With Viewideo you will have full control of your implementation 24 hours a day and seven days a week, without waiting for a third party provider to grant access or make changes.

A hand is pointing at a yellow block that features the Viewtravel API logo and text. The background consists of various colored blocks (green, red, blue, light blue, orange) arranged in a grid-like pattern.

 **viewTravel API**

Third party content access via Viewtravel API

Viewtravel API may be used for custom development services, including feature extensions, new features, integration with third-party products, user interface design, pull and push data services, database integration, hardware and software interfacing and web applications upgrade.

Customize your Viewtravel experience. Easily build integrations!

As you create travel itineraries, tour programs, destination presentations and trip proposals, as you close more deals, as you see the benefits of integrating Viewtravel with other sales support systems, our documentation and support team will help you along the way ensuring no deal or point of contact slips through the cracks.

Pull proposals and travel itineraries and make them appear in your invoicing software, or even, create new proposals and travel itineraries based on someone who fills out a form on your website or completes a reservation and issues a ticket on your booking engine or GDS – Global Distribution System.

- Enable developers to integrate certain Viewtravel content into websites, intranet sites, mobile device applications and/or personal computer applications
- Simple connectivity tool that allows third party developers to create plugins for “just-one-click” proposals and travel itineraries (Viewtravel Views) creation from multiple sources (CRM, GDS, booking systems, among others...)

DESTINATION

Paris is the **capital** and **most populous city** of France, with an area of 105 square kilometres (41 square miles) and a population of 2,206,488. Since the 17th century, Paris has been one of Europe's major centres of finance, commerce, fashion, science, music, and painting. The Paris Region had a **GDP** of €681 billion (US\$850 billion) in 2016, accounting for 31 per cent of the GDP of France. In 2013-2014, the Paris Region had the **third-highest GDP in the world** and the **largest regional GDP in the EU**. According to the **Economist Intelligence Unit** Worldwide Cost of Living Survey in 2018, Paris was the second-most expensive city in the world, behind **Singapore** and ahead of **Zurich, Hong Kong, Oslo** and **Geneva**.

The City of Paris's administrative limits form an East-West oval centred on the island at its historical heart, the **Île de la Cité**; this island is near the top of an arc of the river **Seine** that divides the city into southern **Rive Gauche** (Left Bank) and northern **Rive Droite** regions. Paris is the core of a built-up area that extends well beyond its limits: commonly referred to as the **agglomération Parisienne**, and statistically as a **unité urbaine** (a measure of **urban area**), the Paris agglomeration's 2013 population of 10,601,122 made it the **largest urban area in the European Union**. City-influenced commuter activity reaches well beyond even this in a statistical **aire urbaine de Paris** (a
